Restorative Justice Practices
June 17-20, 2019

DESCRIPTION
Experience a thorough introduction to restorative practices concepts during this cornerstone event. The aim of restorative practices is to develop community and manage conflict and tension by repairing harm and restoring relationships. Attendees will receive a copy of the Circle Forward, Building a Restorative School Community as a resource book.

LEARNING OBJECTIVES
• How to structure Implementation of Restorative Justice in organizations
• Participants will have the opportunity to practice designing and keeping circles - both to build community and respond to harm - receiving feedback on their skills and an informal assessment of their readiness to apply circles to their work.
• Drills and mock scenarios will draw from real life situations and will provide examples of the use of the process in schools, families, communities, and the justice system.
• Participants will be introduced to the range of formal and informal interventions available as alternatives to punitive discipline and will explore how to integrate circle practices with existing policies and systems.

WHO SHOULD ATTEND THIS COURSE
• Teachers / Administrators / Special Education
• Youth Serving Organizations

• School Counselors, School Psychologists
• Social Workers
• School Resource Officers
• Juvenile Practitioners in Criminal Justice
• Other professionals who wish to incorporate peacemaking circles to build community and respond non-punitively to harm at their school/organization/agency.
