

Adding to VoiceThread – Student Guide

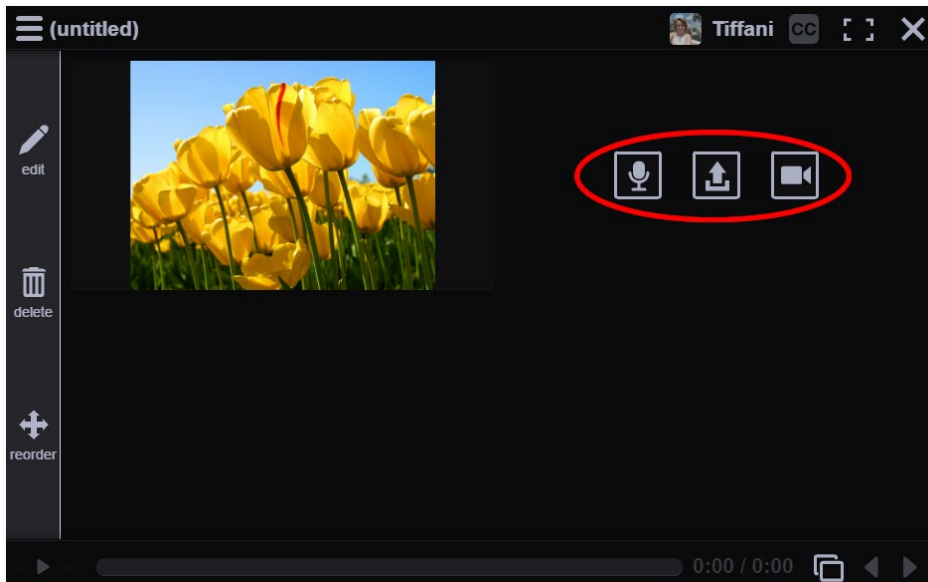

1. Locate the VoiceThread link in your D2L course. Select the layered squares at the bottom right hand of the page. This will allow you to view all slides in the thread.

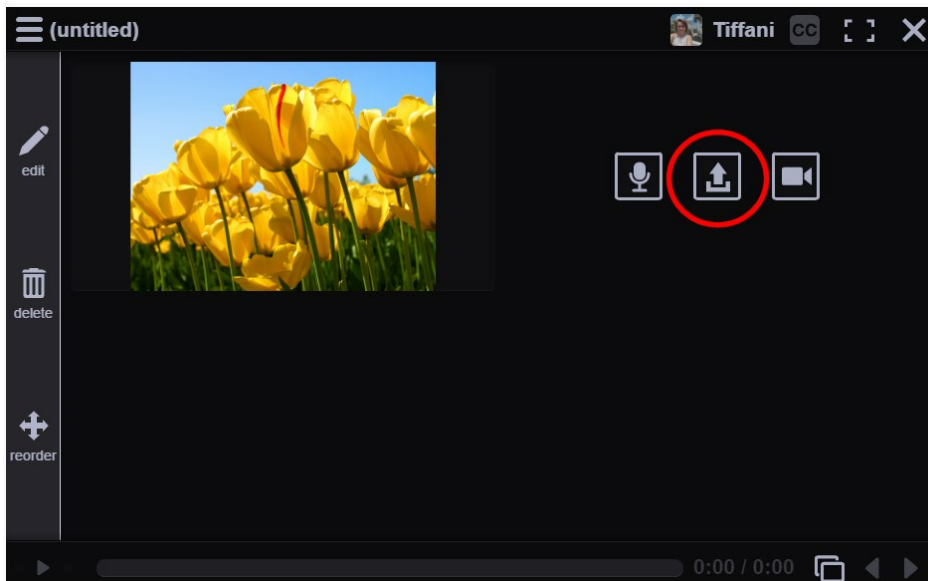

2. Select the plus sign on the screen to see your options.

3. You have the option to record audio (microphone icon), upload files (arrow icon), or record video (video camera icon).

4. Select **upload file** to locate the image, video, or document that you would like to add to your voice thread.

5. Locate your image, video, or document and select open to upload your selected file to voice thread.
